All HCPs should periodically re-train to ensure that BP Measurement is performed accurately and consistently every time. Improve competency with the 5 essential steps to accurately measure and record BP.

Course Content & Outcomes

- Reinforces guideline recommended BP measurement techniques
- Simulates proper BP measurement using a manual, semi-automated, or automated device
- Boosts competency and confidence in BP measurement reading across the care team
- Provides 0.5 Continuing Education (CE) credit
- Improve blood pressure measurement skills with the new Achieving Accuracy: BP Measurement e-
- Learning module co-developed by the American Heart Association and the American Medical Association.
- Guidelines recommend all HCPs should periodically re-train on BP measurement techniques to ensure you consistently measure BP accurately every time.
- Reinforces knowledge on guideline recommended BP measurement techniques
- Teaches 5 essential steps to accurately measure and record BP using a manual, semi-automated, or automated device

Target Market

All essential frontline healthcare professionals eg:

- Physicians
- Nurses
- Physician assistants
- Allied health staff
- Pharmacists

Duration, Other Information

- Duration: Online self-paced only
- AHA Certificate

Background & Context

High-quality patient care is the top priority for healthcare professionals (HCPs), and re-training is vital to improving accuracy in blood pressure (BP) measurement and consistently every time.. High BP is a leading risk factor for heart attacks and strokes. Identifying and treating High BP is key to improving patients' cardiovascular health. Guidelines recommend healthcare professionals periodically re-train on BP measurement techniques, as high BP is a leading risk factor for heart attacks and strokes. To address gaps and improve patient care, the AHA and the American Medical Association have collaborated to develop a new eLearning competency training module focused on ensuring that every health care professional measures BP accurately and consistently every time.

Facilitator Credentials
