STRICT COVID 19 PROTOCOLS OBSERVED  
3days/f2f/US120496  
Must have a current US119567 First Aid  
Level 1 Certificate  
\*T&C Apply

First Aid Level 2 equips  
first-aiders with a  
higher level of skill to  
apply medical care in an  
emergency.

## Course Content & Outcomes

Learners will be upskilled in emergency care eg:

- Preparedness for health emergencies in the workplace.
  - Environmental illness and injuries.
  - Assessing and managing an emergency scene.
  - The primary & secondary survey.
  - Emergency life support for adults, children and infants, including single and two persons CPR, artificial respiration, using an AED and managing a choking patient.
  - Bleeding and shock; anaphylactic shock
  - Diabetes, epilepsy, asthma, stroke, heart attack.
  - Management of wounds; soft tissue injuries.
  - Common injuries, burns, poisoning etc.
  - Head and spinal injuries, fractures, joint injuries etc
  - Recording an incident/accident.
- First aid and follow-up treatment.

## Target Market

Everyone in workplaces and spaces where people gather eg:

- Formal & informal sector employers
- Health and Safety Reps and Committees in workplaces.
- Self-employed entrepreneurs, 'second hussle' job seekers,
- Formal and Informal settlement residents.
- Essential for leaders of teams managing venues, churches.
- Employees who work from home, remotely off-site.
- Highly recommended career path for youth, unemployed. Essential for neighbourhood watch and school teams,etc.

## Background & Context

The level 2 first aid course is focused on providing primary first aid care in the workplace in response to health emergencies, particularly those arising from an occupational risk in the specific workplace. First aid level 2 is a pre-requisite for doing the advanced first aid level 3 course. This training course incorporates the specific outcomes and assessment criteria of the SAQA-registered Unit Standard 120496. CPR in this course complies with the guidelines released by the American Heart Association, October 2015. COVID-19 protocols as directed are covered in this course.

## Duration, Other Information

- SAQA Unit Standard 120496
- NQF Level:2 | Credits:5
- Duration: 3 days, face to face.
- Credit-bearing outcomes requires POE submission. SETA Statement of Results (SOR) are issued by SETA's and can take 6 months or more.
- Non-credit bearing option available utilising credit bearing unit standard training material and tests excluding POE submission.
- Prerequisite: Current First Aid Level 1 Unit Standard 119567 certificate
